ARRIVING NOVEMBER 2026

NEW FROM TAP

MEET NELSON

AI RAMS review, built into your TAP permits.

A second set of eyes on every RAMS. Nelson reads the contractor's RAMS, highlights where it could be strengthened, and gives your Approver a clear summary.

70 pages of RAMS → MACHINE TIME **Under 1 minute** for Nelson's review and summary

STRONGER RAMS

Contractors see where their RAMS could be improved and can upload a revised version before it reaches you.

FASTER REVIEWS

A lengthy document becomes a clear summary in under a minute, so Approvers can focus on the decision.

YOU STAY IN CONTROL

Nelson suggests and summarises. It never approves, rejects or blocks a permit.

HOW IT FITS YOUR PERMIT PROCESS

01 Contractor uploads their RAMS

02 Nelson summarises it and notes areas to strengthen

03 Contractor can revise and re-upload, or carry on

04 THINKING TIME

Your Approver reviews the summary and decides

ONE REPORT

every observation, in one

SEAMLESSLY INTEGRATED

no new system to learn

YOUR CHOICE

switched on at client level

AI ASSISTANT FOR RAMS

STRONGER RAMS. FASTER DECISIONS.

Nelson guides the process and summarises the information. Your Approver decides the outcome.

WHAT NELSON DOES

- Reviews the RAMS on upload and gives a high-level summary
- Checks hazards in the risk assessment are addressed in the method statement
- Suggests which permit categories may apply, for the user to confirm
- Keeps a record on the permit of what was considered

YOUR APPROVER, IN CHARGE

- Every approval decision is made by your Approver
- Contractors can always submit their permit, with or without changes
- Its advice stays consistent, whoever the Approver
- Nothing is decided automatically

THE KIND OF OBSERVATION NELSON MAKES

AREA TO STRENGTHEN

The risk assessment identifies asbestos, but the method statement doesn't describe how it will be managed during the works.

Why it matters most at quieter sites

Where few permits are issued, Approvers have less day-to-day familiarity with RAMS. Nelson gives them a consistent starting point every time.

A clear record on every permit

Nelson's summary of the latest RAMS stays with the permit, so you can always see what was considered and when.

SEE IT ON YOUR OWN RAMS

Book a short demo and we'll run one of your RAMS through Nelson.
